

NEW COURSE! August 18th-20th • NAR Training Las Vegas, NV

ADaPT

**Advanced Damage Control Resuscitation
and Prehospital Transfusion Course**

Co-developed by **North American Rescue® Education and Training** (NAR® Training) and the **Trauma Hemostasis and Oxygenation Research Network** (THOR), this immersive three-day course blends foundational science, hands-on skills, and EMS simulation training. Receive training from subject matter experts and THOR network instructors supporting real-world prehospital trauma care across trauma and non-trauma patients including pediatric, obstetric, and geriatric considerations. Discover systems and compliance focus agencies need to sustain safe programs - including key AABB and FDA requirements and operational best practices for high-reliability blood operations, with considerations for products such as low-titer O whole blood (LTOWB) and blood components.

Co-developed by:

Accreditation & Compliance

- CAPCE-Accredited CE for NCCP/NREMT*
- Approved EMS Training Center (SNHD+DHEC)
- Hands-on, Evidence-based Training from the THOR network
- Blood Products & Field Transfusion Readiness
